OpenFlows™
Advantage

Intuitive User Interface
Easy to learn, adopt, and use.

No Hidden Prices
Our affordable prices are listed on our website so there are no surprises.

Infinitely Scalable
Plan, design, and operate intelligent water and wastewater infrastructure from very large to very small configurations.

Value That Keeps on Giving
We are continually adding new features and functionality to further maximize your software investment

Advanced Support and Custom Training
Dedicated support and personalized one-on-one are included for no additional fees.

Why Choose OpenFlows

Bentley's OpenFlows software helps you work smarter, not harder. Optimize and intelligently analyze, plan, design, and operate water, wastewater, and stormwater infrastructure in less time and with less effort.

Plan intelligently, model accurately, and make renewal decisions reliably so you can deliver clean water safely.
